As a quiet unsociable person, I was afraid that I would get lost having nobody known. But who would believe that the shy little girl would end up winning the show," Ms. Fresher 2020 ". NCM did not only grant me the opportunity to showcase my talent, but it has also helped me to discover my hidden talent and most importantly, the title gave me the confidence that I am enough and capable of much more.

I have achieved the confidence as an NCMite but I am aware that I have a long way to go and I am also aware that NCM will always hold my hand while I explore the new possibilities in life. ,”

I remember my first year of undergraduate degree, we were assigned to conduct a research on innovative businesses. I was intrigued by the findings and always longed for more. As a result of this project and tens of others throughout my undergraduate degree, I realized my true calling. When I look back at my pre undergraduate years, I remember being confused and disoriented but NCM gave me clarity and pushed me beyond my limits. For someone who had no purpose whatsoever, helping them find their purpose and crafting a foundation to build upon is what NCM is for me.

As Pablo Neruda puts it, "He or she who shuns passion, who prefers black on white, dotting ones rather than a bundle of emotions, the kind that make your eyes glimmer, that turn a yawn into a smile, that make the heart pound in the face of mistakes and feelings, dies slowly."
